

PRESS RELEASE

March 04, 2024

The Village is thrilled to be a recipient of funding from the Municipal Climate Change Action Centre that contributed to the purchase a new electric JD Gator from Brandt Tractor in Brooks, AB. This purchase will reduce our greenhouse gas emissions and provide a new maintenance tool for our parks and public works department.

“Our parks maintenance staff will be moving around the Village this summer on a quiet, environmentally friendly electric Gator. This new EV product from John Deere is state of the art and will be a benefit to our Village for many years to come. Thanks to the Government of Alberta for supporting climate change initiatives such as this.” Mayor CoriAnn Nielson

The Municipal Climate Change Action Centre is a partnership of Alberta Municipalities, the Rural Municipalities of Alberta, and the Government of Alberta. Funding for the Electric Vehicles for Municipalities Program was provided by the Government of Alberta
